March 2024
FOI_6428

The following information was requested and clarified on 28 February 2024:

Follow up to – [FOI 6392 Stillbirths Cerebral-Palsy Brain-Damage.pdf \(resolution.nhs.uk\)](#)

Apologies, to clarify, could we have it as a collective between those 10 years by trust.

Attached ([FOI 5320](#)) is an FOI we ran a couple of years ago that has it broken down by trust with the totals over the 10 years added together (see table 3 – this is the table we're looking for please). Could we have a repeat of this just with the latest years (2012/13 through to 2022/23 financial year) please.

Our Response

NB: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to <https://resolution.nhs.uk/resources/understanding-nhs-resolution-data>.

Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle and close. They are not guaranteed to be settled and closed in the same year. As such, there will be a time gap between incident and claim closure.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as nil damages payment), challenged, reopened, and closed again at conclusion.

The data shows variation in numbers of cases closed per year and costs attributed to those claims. This is a reflection of the nature of individual claims received and resolved

by NHS Resolution, which can vary significantly. As such, these fluctuations cannot be interpreted as trends.

Please find attached the requested information.

Table 1 shows: - Number and Cost of Clinical Claims Closed between financial years 2012/13 and 2022/23 with a damages payment, where any injury is '**Stillbirth**', broken down by Member with 5 or more claims. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 2 shows: - Number and Cost of Clinical Claims Closed (or settled with a periodical payment order) between financial years 2012/13 and 2022/23 with a damages payment, where any injury is '**Cerebral Palsy or Brain Damage**' and the specialty is **Obstetrics**, broken down by Member with 5 or more claims. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure, or for PPO matters, year of settlement.

Please note Claims recorded against the Department of Health and Social Care (showing as Department of Health) include liabilities arising from defunct NHS organisations, which transferred to the Secretary of State for Health and Social Care when those organisations were abolished. These also include NHS clinical negligence claims made against current and former GP members of medical defence organisations (currently MDDUS and MPS only) in respect of liabilities incurred before 1 April 2019. These are managed under ELSGP. Please see our website for details ([Existing Liabilities Scheme for General Practice - NHS Resolution](#)).

Please note: these tables should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform.

PPOs

The information disclosed includes damages and costs paid up to the end of the settlement year (in Periodical payment order (PPO) cases) and up to the end of the closure year in non-PPO cases.

PPOs are an agreement between the parties, to pay an initial lump sum and regular future payments (PPO damages) related to the injured party's ongoing needs, usually care for life i.e., a percentage of the full value of the claim is paid at the point of settlement (lump sum damages) with the balance paid at regular intervals over subsequent years. The information disclosed includes lump sum damages, costs and any PPO damages paid up to the end of the year of settlement. It does not include

PPO damages, which have been committed to but due to be paid after the settlement year.

Low figures

We have not provided the information for low figures involved or the names of Trusts with fewer than 5 claims, as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Tinku Mitra](#), Deputy Director of Corporate and Information Governance, Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
