September 2025
FOI_7377

The following information was requested on 10 August 2025:

This is an update to my request last year. [FOI 6896 Assault-claims.pdf](#)

Please can you provide me with the following information using the FOI act:

How many physical assault claims against the NHS have been made by NHS staff in each of the following years 2024-25, 2023-24, 2022-23, 2021-22 and 2020-21?

Please can you break this down by trust?

Can you please provide the number and cost of such claims closed (or settled with a periodical payment order) with a damages payment – for the years stated above?

Please can you break this down by trust?

Our Response

Thank you for your request for information. Please find attached the requested information we are able to provide. This information only covers England and not the rest of the UK. We are able to provide the data on the claims and incidents notified to us. We will not hold the details of **all** incidents relating to physical assault. Individual Trusts will hold this.

Please note: We have recently changed the way we report on our FOIs to align better with our published documents. Streamlining our reporting on FOIs with our annual published reports may mean a variation in snapshot dates. This means this data may not align with previous similar requests and it may not be possible for you to compare this information with a previous request. For further information, please refer to [Understanding NHS Resolution data - NHS Resolution](#)

Please note claims notified/received and open are not guaranteed to be settled in the same year and can take many years to be concluded. Claims notified/received in any given year will often relate to incidents that have occurred many years prior. Due to the nature of clinical negligence claims and the level of investigation needed to bring them to a resolution, claims received and notified in a specific year may take years to settle.

Due to the way in which data is extracted, it is also possible that the same claim may appear more than once in a dataset, across different year groups e.g. where the case has been closed (as unsuccessful), challenged, reopened, and closed again at conclusion. This can mean that large value claims appearing more than once can have a significant impact on the totals for Trusts.

LTPS Scheme

NHS Resolution manages a number of risk-pooling schemes (similar to insurance) for the NHS, one of which is the Liability to Third Parties Scheme (LTPS). This covers both employers' liability (**EL**) (i.e. in relation to duties of care owed to employees) and public liability (**PL**) (i.e. in relation to duties of care owed other patients, visitors, and other members of the public). You can find out more about the LTPS scheme here: [Liabilities to Third Parties Scheme - NHS Resolution](#)

Please **find attached** the following tables:

Table 1 shows: – Number of LTPS Claims and Incidents received between financial years 2020/21 and 2024/25 where any cause is '**Assault**' and Liability Type is 'Employers Liability'.

Table 2 shows: - Number of LTPS Claims and Incidents received between financial years 2020/21 and 2024/25 where any cause is '**Assault**' and Liability Type is 'Employers Liability', broken down by NHS member.

Table 3 shows: - Number and Cost of LTPS Claims Closed between financial years 2020/21 and 2024/25 with a damages payment, where any cause is '**Assault**' and Liability Type is 'Employers Liability'. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Table 4 shows: - Number and Cost of LTPS Claims Closed between financial years 2020/21 and 2024/25 with a damages payment, where any cause is '**Assault**' and Liability Type is 'Employers Liability', broken down by NHS member. The data includes the damages and legal costs paid up until the end of each relevant financial year of closure.

Please note: these tables should not be interpreted as a league table. Larger member organisations and those which provide more complex treatments may receive more claims than smaller organisations or those providing low risk care. Inevitably, different institutions face different levels of risk because of the variations in the nature and complexity of the procedures they perform. It also worth noting that there may be Trusts with fewer than 5 claims but higher damages payments. Due to Data Protection grounds, we are unable to provide you with the details of these claims.

Low Numbers -

We have suppressed low figures as we believe that disclosure of information with this level of granularity is exempt under Section 40(2) by virtue of section 40(3A) (a) of the FOI Act, where disclosure to a member of the public would contravene one or more of the data protection principles. The data protection principles are set out in Article 5 of the General Data Protection Regulation. We take the view that it would not be fair or lawful (given the sensitive and confidential nature of the information held) to disclose such information, and any disclosure would therefore contravene the first data protection principle.

In some instances, the low numbers of claims (fewer than 5) in each category, the likelihood exists that individuals who are the subject of this information may be identified either from this information alone, or in combination with other available information. In addition to this, as this information is considered to be sensitive personal data (the data subjects' medical condition); NHS Resolution believes it has a greater responsibility to protect those individuals' identities, as disclosure could potentially cause damage and/or distress to those involved. Where we are in the territory of such small numbers in the attached, we have used a '#' symbol in the relevant field. You should still be able to see aggregate/total details for higher level fields containing this data.

Please also visit our [Learning from workplace violence claims within the NHS: A thematic review - NHS Resolution](#) produced by NHS Resolution in collaboration with the Social Partnership Forum and NHS England.

Further to our obligations to provide advice and assistance, you may find it helpful to review the work of the [Getting It Right First Time team](#) with whom NHS Resolution has been working with to undertake in-depth analysis of our claims data. They have produced a number of [reports](#) from analysing our claims data, which has been shared following approval of the confidentiality advisory group to the use of confidential patient information for this purpose.

If you would like to know how data is categorised in our Claims database please see the following link: [Glossary](#)

This concludes our response to your request.

If you are not satisfied with the service that you have received in response to your information request, it is open to you to make a complaint and request a formal review of our decisions. If you choose to do this, you should write to [Joanne Appleby](#), Deputy Data Protection Officer for NHS Resolution, within 28 days of your receipt of this reply. Reviews of decisions made in relation to information requests are carried out by a person who was not involved in the original decision-making about the request.

If you are not content with the outcome of your complaint, you may apply directly to the Information Commissioner for a review of the decision. Generally, the Information

Commissioner will not make a decision unless you have exhausted the local complaints procedure. The address of the Information Commissioner's Office is:

Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF
